“ *I'm sorry to read of Angie's passing. I met Angie when I started my nursing career at West Virginia University Hospital in 1984. We worked together on station 52. I thought a lot of her. She took such good care of her patients. She cared about the people she took care of and she taught me a lot about patient care and developing good instincts. She certainly didn't mind keeping a new nurse straight, and I am a better nurse for knowing her! I will be praying for you, Angie's family, as you go through this difficult time.*
