“ I worked with bob for several years at US Steel Clairton Works when I was a young man in my early twenties. Bob was a little older than me, married and a lot more mature. I will never forget his smile and all the quality advice he would give me to keep me on the straight and narrow . We enjoyed working together and developed a friendship . We went on several motorcycle trips and had great times and shared a lot of memories. . As fate would have It, I would move to California and loose contact with Bob. Looking back, I can honestly say I had the upmost respect for Bob and He made a positive impact on how I carry myself through my life. I know He is riding easy.
